

# SPIN WINDOW

## SPW SERIES:

With high speed centrifugal force to wipe away all the chips, filings and solvent. Spin Window guards operator's safety by providing them the best visibility, is ideal for productivity improvement process optimization.

### FEATURES:

- Oil and water proof design (IP65)
- Standard internal start/stop magnetic switch
- Provide external start/stop control signal
- Easy to install, operate and maintain
- Long life, instrument-rated bearing set
- Directly mounted on the surface of machine pane, glass or polycarbonate without need of destroying original structure.
- Suitable for CNC high-speed milling/grinding machines

### SPECIFICATION:

Model No.	SPW-280		
Specification	Driver	Brush-less DC Motor driver	
	Power consumption	100W	
	Input voltage	DC 27V	
	RPM	2100RPM	
	Start current	5A	
	Rated current	3.5A	
Dimensions	Disc	280mm (external diameter)	
	Glass	200mm (internal diameter)
